

DWA_03.5 Knowledge Check_DWA3.2

User story(ies) in Gherkin syntax for the “+” button.

Feature: Tally count App

Scenario: Tallying numbers by increasing the tally count

Given the user opens up the tally counting app
And there are no counts recorded
When the user starts a new tally
And the user increments the count by 1
Then the tally increases the more the user increments the count
And the user can save the tally for future reference

2. User story(ies) in Gherkin syntax for the “-” button.

Feature: Tally count App

Scenario: Tallying numbers by decreasing the tally count

Given the user opens up the tally counting app
And there are no counts recorded
When the user starts a new tally
And the user decrements the count by 1
Then the tally decreases the more the user decrements the count
And the user can save the tally for future reference
